

Sam practices hockey for 20 minutes each night. After a week, does he practice for more than 2 hours?

1 hour = 60 mins

1 week days

Day	Time
1	20
2	40
3	60
4	20
5	40
6	60
7	20

1 hour

1 hour

Yes, Sam practices for more than 2 hours. He practices for 2 hours and 20 minutes.

OR

1 hour = 60 minutes

1 week = 7 days

Day	Time
1	20
2	20
3	20
4	20
5	20
6	20
7	20

1 hour

1 hour

Sam practices for more than 2 hours, in fact 20 minutes more.

OR

Sam practices hockey for 20 minutes each night. After a week, does he practice for more than 2 hours?

$$7 \times 20 = 140$$

1 week = 7 days

1 hour = 60 mins

$$60 \times 2 = 120$$

So Sam practices for 140 minutes and 120 minutes is 2 hours. So Sam practiced for 20 minutes for more than 2 hours.
